

QMC-AMP12-78151621 is a high performance power amplifier. This amp operates using a single positive voltage from 7-12VDC Internal reverse bias protection ensures reliability

Technical Specifications
Frequency: 71 to 86 GHz
Gain: 16 dB typical
PSAT: +21 dBm typical
DC: +8V @ 450 mA typical
Waveguide: WR-12, UG-387/U
