

Product Description

QMC-MX4-12F13 is a high performance active multiplier at an excellent value. These multipliers operate using a single positive voltage from 7-12VDC Internal reverse bias protection ensures reliability

Technical Specifications

Input Frequency: 15 to 22.5 GHz
Input Power: 0 to +5 dBm
Multiplication Factor: X4
Output Frequency: 60 to 90 GHz
Output Power: 12 dBm min, 14 dBm typ
DC: +8V @ 500 mA typical
Signal Purity: -20 dBc typical
Waveguide: WR-12, UG-387/U
