

QMC-AMP15-62093324 is a 24 dBm 57 to 66 GHz power amplifier.
Operates using a single positive voltage. Internal reverse bias protection ensures reliability

Frequency: 57 to 66 GHz
Gain: 33 dB typical
P1dB: 21 dB typical
PSAT: +24 dBm typical
DC: +8V @ 700 mA typical
WG: WR-15, UG-385/U
without Heatsink
*Heatsink can be requested by
adding HS to the end of part
number
