

QMC-CRYOIRF-004
QuantumMicrowave.com

Specifications:

- High Cut-Off Frequency Infrared Filter
- Insertion loss 5 dB @ 10 GHz (typical)
- Return loss up to 10 GHz better than 20 dB (typical)
- Based on magnetically loaded dielectric absorber
- Eccosorb CR 110
- Length of absorber in filter: 2 cm
- Impedance: 50 Ω
- Capable of operation at 10 mK
- Connectors: SMA F on both sides
- Housing Gold Plated OFHC Copper Typical Frequency Response:

Made in the USA
